

Free Film Screening and Book Launch

**A documentary film by
Sinem Saban & Damien Curtis**
(updated version - 52 mins)

The oldest culture on earth is fighting for survival. Our Generation explains the real issues underlying Indigenous disadvantage in this "lucky" country, and the responses of Aboriginal people to the Northern Territory intervention. Through the voices of youth, men, women and elders from remote communities, the film opens the way for dialogue on how Australia can move forward with genuine respect and partnership with its First Peoples.

**Graeme Mundine will launch the book
A Decision to Discriminate
Aboriginal Disempowerment in the
Northern Territory**

This book allows us an insight into what Aboriginal people in the NT are saying to Government about their experiences of the Intervention and their opinions of the recently introduced extension "Stronger Futures". The book highlights the fact that a wide range of Aboriginal people and organisations have clearly stated to Government that they are not happy with the Intervention and do not want 'Stronger Futures', yet the legislation has been introduced.
